PROJECTS

E-learning Platform

- Implement user authentication and authorization.
- Enable course creation, editing, and deletion
- Ensure platform responsiveness across devices using Bootstrap or Material-UI and responsive design principles.

Rock, Paper, Scissors Game

- Developed an interactive Rock, Paper, Scissors game using HTML, CSS, and JavaScript, showcasing proficiency in front-end web development.
- Implemented user-friendly interface design to enhance user experience, making it intuitive and visually appealing.
- Implemented gameplay with input validation and computer choices, showcasing strong problem-solving and game development skills.

Crud Operations

- Implemented user authentication to control access to CRUD operations.
- Enabled user logout functionality to securely end sessions.
- Incorporated authorization checks to restrict CRUD actions based on user permissions.

INTERNSHIP

EUPHORIA GENX | July.2023-Aug.2023

MERN STACK WEB DEVELOPMENT

- Developed a scalable e-learning platform using MERN stack
- Implemented secure user authentication and authorization
- Designed an intuitive and responsive UI/UX for an engaging learning experience

TECHNICAL SKILLS

• Languages: C, Java, JavaScript, Python

• Databases: SQL,MongoDB

Developer Tools: Git, Postman

EDUCATION

Brainware University, Barasat

B.Tech in Computer Science and Engineering

Sri Chaitanya, Hyderabad

Higher Secondary

Percentage:78%
Aug. 2020 – June.2024
Percentage:69%
2020

ACHIEVEMENTS

- Completed comprehensive training in MERN stack (MongoDB, Express.js, React, Node.js).
- Hacktoberfest 2020: Made open-source contributions and successfully completed Hacktoberfest. Received a
 developer's badge, t-shirt, and GitHub badge
- HackerRank:Gold Badge in C.
- 150+ questions solved in all coding platforms.

CERTIFICATIONS

Successfully completed MERN stack training, culminating in the acquisition of a certificate. Completed comprehensive training in C and Java programming languages, acquiring a certificate.
